“(Lora Schmit) kept all the children totally enthralled. That is how to help children enjoy stories and the benefits of reading!”

~ Parent

“(Lora Schmit) had the children on the edge of their seats waiting for her next word and then falling out in laughter. It was wonderful to see how she captivated them.”

~ Tiffany

“We enhanced the cultural life of our community and this project helped individuals understand the Latin-American art of paper flower making. We had many fathers attend this workshop and they seemed to really enjoy this activity with their children. The best part was watching the parents interact and assist their children.”

~ Jeannie
